PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience building production applications using SvelteKit, Svelte, Node.js, JavaScript, TypeScript, SQL, MongoDB, REST APIs, and WebSocket. Delivers frontend interfaces, backend services, database schemas, authentication, role-based access control, and real-time features for ERP, HRMS, fintech, IoT, and consumer software products. Experienced in API integration, system design, client communication, code reviews, and mentoring.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, HTML5, CSS3

Frontend: SvelteKit, Svelte, Responsive Web Design, Component Architecture, UI Development

Backend & APIs: Node.js, Express.js, RESTful APIs, API Integration, WebSocket, Real-Time Event Handling

Databases: Microsoft SQL Server 2022, MongoDB, Relational Database Design, Schema Design, Query Optimization

Authentication & Security: OAuth 2.0, Microsoft SSO, Authentication, Authorization, Role-Based Access Control (RBAC)

Tools & Practices: Git, GitHub, Postman, Vite, Chart.js, Figma, OpenAI API, Code Reviews, PR Ownership, Technical Documentation, Agile Development

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Binary Technologies

Kochi, India | July 2023 - Present

- Develop and maintain production full-stack applications using SvelteKit, Svelte, Node.js, JavaScript, TypeScript, SQL Server, MongoDB, REST APIs, and WebSocket for enterprise and client-facing products.
- Built the Procurement and Accounts modules of a JSON-driven low-code ERP platform end to end, covering SvelteKit UI, CRUD workflows, REST API integration, relational database design, RBAC, and direct client requirement discussions.
- Contributed within a configuration-driven platform that generates SvelteKit and Node.js applications from JSON definitions, reducing client implementation time by approximately 80% compared with custom development.
- Delivered Gift Disclosure and Connects modules for MBME Group's UAE HRMS portal, including frontend development, backend APIs, MSSQL and MongoDB data models, Microsoft SSO, and authorization workflows for a planned 10,000+ employee rollout.
- Built major frontend workflows for MBME WOW Pay, a live UAE payment platform operating across 1,000+ locations, with responsive transaction flows and consistent cross-device behavior.
- Created and maintained 40+ reusable Svelte components - form builders, data grids, dashboards, and real-time displays - reused across multiple production products.
- Integrated OpenAI API capabilities for AI-assisted SQL generation and UI suggestions; conducted code reviews and mentored 2 junior developers in SvelteKit and JavaScript fundamentals.

FREELANCE EXPERIENCE

Freelance IoT Developer | Project-Based

Kerala, India | Independent client work

- Built a parking-monitoring system for college clients using IoT sensors, a Svelte-based monitoring interface, and MongoDB to display real-time parking availability.
- Developed an IoT temperature-monitoring system with sensor data collection, live status monitoring, graphing, and configurable alert thresholds.
- Built a bus-tracking system using IoT sensors, Svelte-based interfaces, and MongoDB backend services to support real-time location monitoring.

SELECTED PROJECTS

USC Low-Code ERP Platform

SvelteKit | Node.js | Microsoft SQL Server 2022 | REST APIs | WebSocket | OpenAI API

- Owned Procurement and Accounts modules with configurable JSON-driven UI, CRUD operations, REST APIs, SQL schemas, automatic foreign-key resolution, and RBAC.
- Designed relational data models and integrated AI-assisted SQL query generation and UI suggestions within the platform.

MBME HRMS and MBME WOW Pay

SvelteKit | Svelte | Node.js | REST APIs | Microsoft SSO | Responsive UI

- Built HRMS employee-portal modules for a planned 10,000+ employee rollout and frontend payment flows for a UAE platform operating across 1,000+ locations.

BigDates AI-Powered Event Platform

SvelteKit | Node.js | MongoDB | REST APIs | OpenAI API

Live: <https://www.bigdates.ai/>

- Built the majority of the production UI, admin portal, chatbot interfaces, referral tracking, and albums upload functionality for a platform powering 1,000+ user-generated event sites.
- Developed photographer gallery-upload features that let users manage and deliver event galleries within the franchise web application.

Malayalam Text and Image Editor - End-to-End Project Ownership

SvelteKit | Svelte | Node.js | REST APIs | IndexedDB | Android

Live: app.malayalameditor.com

- Own the entire project end to end, responsible for product development, system architecture, frontend, backend services, data storage, deployment, and ongoing maintenance.
- Deliver layered text and image editing, Malayalam font support, undo/redo, multi-page workflows, and Android-compatible design import/export with backend rendering integration.
- Manage the Android and web product, including face-blur tools and custom Malayalam fonts; the Android app surpassed 1 million Play Store downloads.

Referise Job Portal - Full Frontend Ownership

SvelteKit | Svelte | JavaScript | Component Architecture | In Development

- Own and manage the entire frontend of the job portal, responsible for application architecture, reusable components, responsive user experience, and frontend feature delivery.
- Implement job discovery and filtering, candidate profiles, saved jobs and searches, URL-driven navigation, and application state management across the portal.

Model Outlook Talent Portfolio Sites

SvelteKit | Node.js | Responsive UI | CDN-Hosted Media

Live examples: modeloutlook.com/Athul__Suresh__K | modeloutlook.com/Heaven_Zairah

- Built live portfolio sites for models and actors featuring biography, career statistics, responsive layouts, media galleries, and filterable content.

Pixel Master Digital Signage

Svelte | JavaScript | CSS | Responsive UI

- Built the UI for a custom digital-signage product deployed to commercial clients, including Samridhi@Kochi.

EDUCATION & CERTIFICATION

Bachelor of Computer Applications (BCA) | Presentation College of Applied Science, Ernakulam | 2019 - 2022

Full Stack Web Development (MERN / MEAN) | NCFET | January 2023 | Certificate No. 103730
